BTRL Concept

One of BTRL's main objectives is to implement the blockchain technology into e-commerce. In setting this kind of objective, BTRL aims to fully utilize the advantages of the technology and make e-commerce as efficient as possible. Step-by-step introduction of the blockchain technology into our ecommerce platform will promote global expansion of BTRL. This combination does not require a drastic change of business processes of the users.

We have been actively participating in the e-commerce market since 2010, We are dealing in different products, leather goods, cosmetics etc.

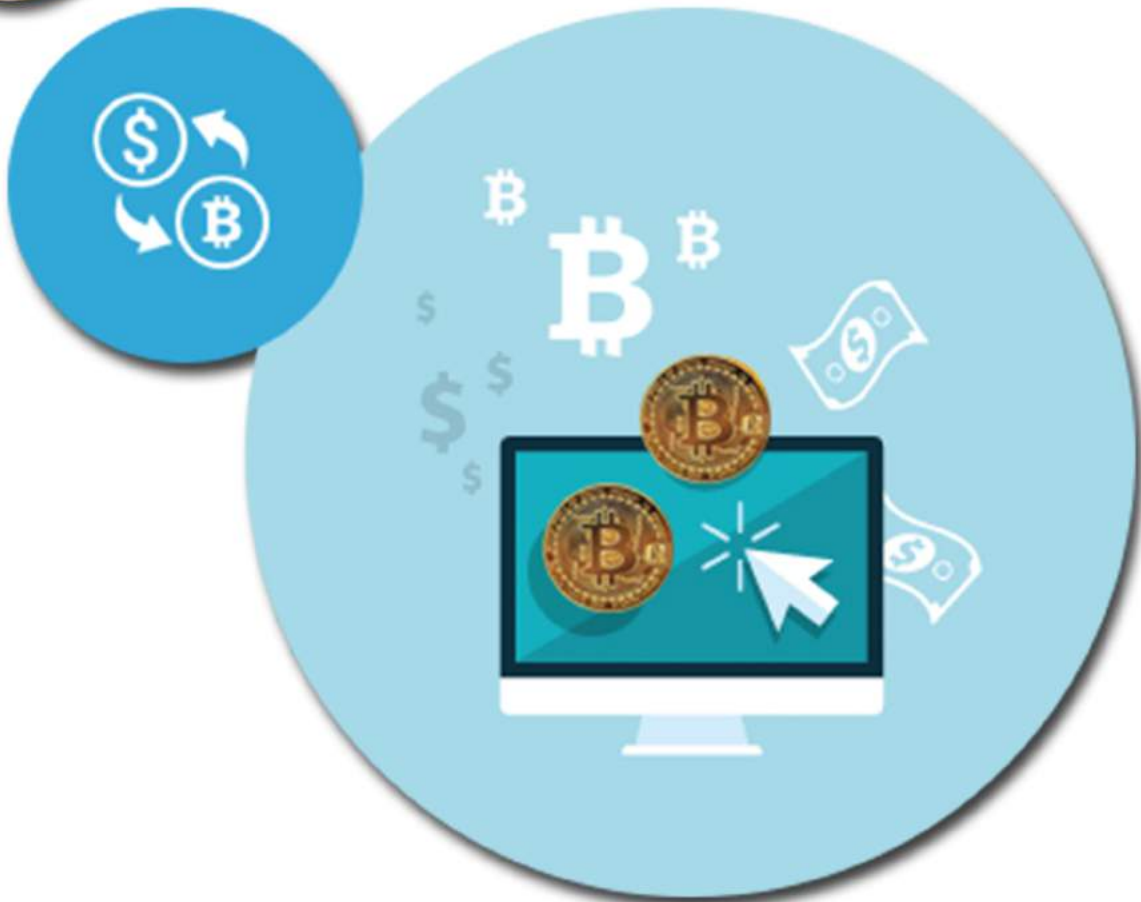

BTRL is the next level ecommerce solution. BTRL allows everyone to access ecommerce services and pay in crypto currencies they have.

Trust and decentralized nature of the BTRL blockchain gives consumers the opportunity to find the best deal and sellers to conduct business more quickly.

The possibilities of blockchain in Ecommerce

BTRL E-commerce is built from the ground up with blockchain baked right into our program. This offers powerful new promises to the user – the promises of blockchain. On the blockchain, users can opt into sharing their data willingly while collecting cryptocurrency every time the product is sold. Through the use of BTRL smart contracts, if information isn't used for its stated and intended reasons, violators can be punished. Blockchain and cryptocurrencies will end up doing for ecommerce just as much as the early Internet did for commerce. With blockchain built right into the fabric of our system, BTRL will change the world in terms of E-commerce.

PROMISES OF BLOCKCHAIN IN ECOMMERCE

Payment protections and transparent decentralization system

Development of Secure encryption & cryptographic methods

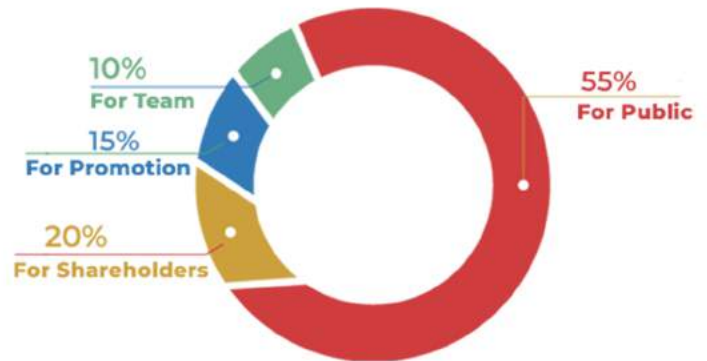

The disappearance of the typical 2.9% credit card transaction

Token Distribution & Details

Project Protocol ERC20
Total Supply 21,000,000
Accepted Tokens BTC, ETH, LTC, XRP, BCH

1

Start	1-Jun -18
End	12-Jun- 18
For Sale	525,000 BTRL
1 BTRL	0.25 USD

2

Start	13-Jun -18
End	24-Jun- 18
For Sale	525,000 BTRL
1 BTRL	0.50 USD

3

Start	25-Jun -18
End	6-Jul- 18
For Sale	525,000 BTRL
1 BTRL	0.75 USD

4

Start	7-Jul -18
End	18-Jul- 18
For Sale	525,000 BTRL
1 BTRL	1 USD

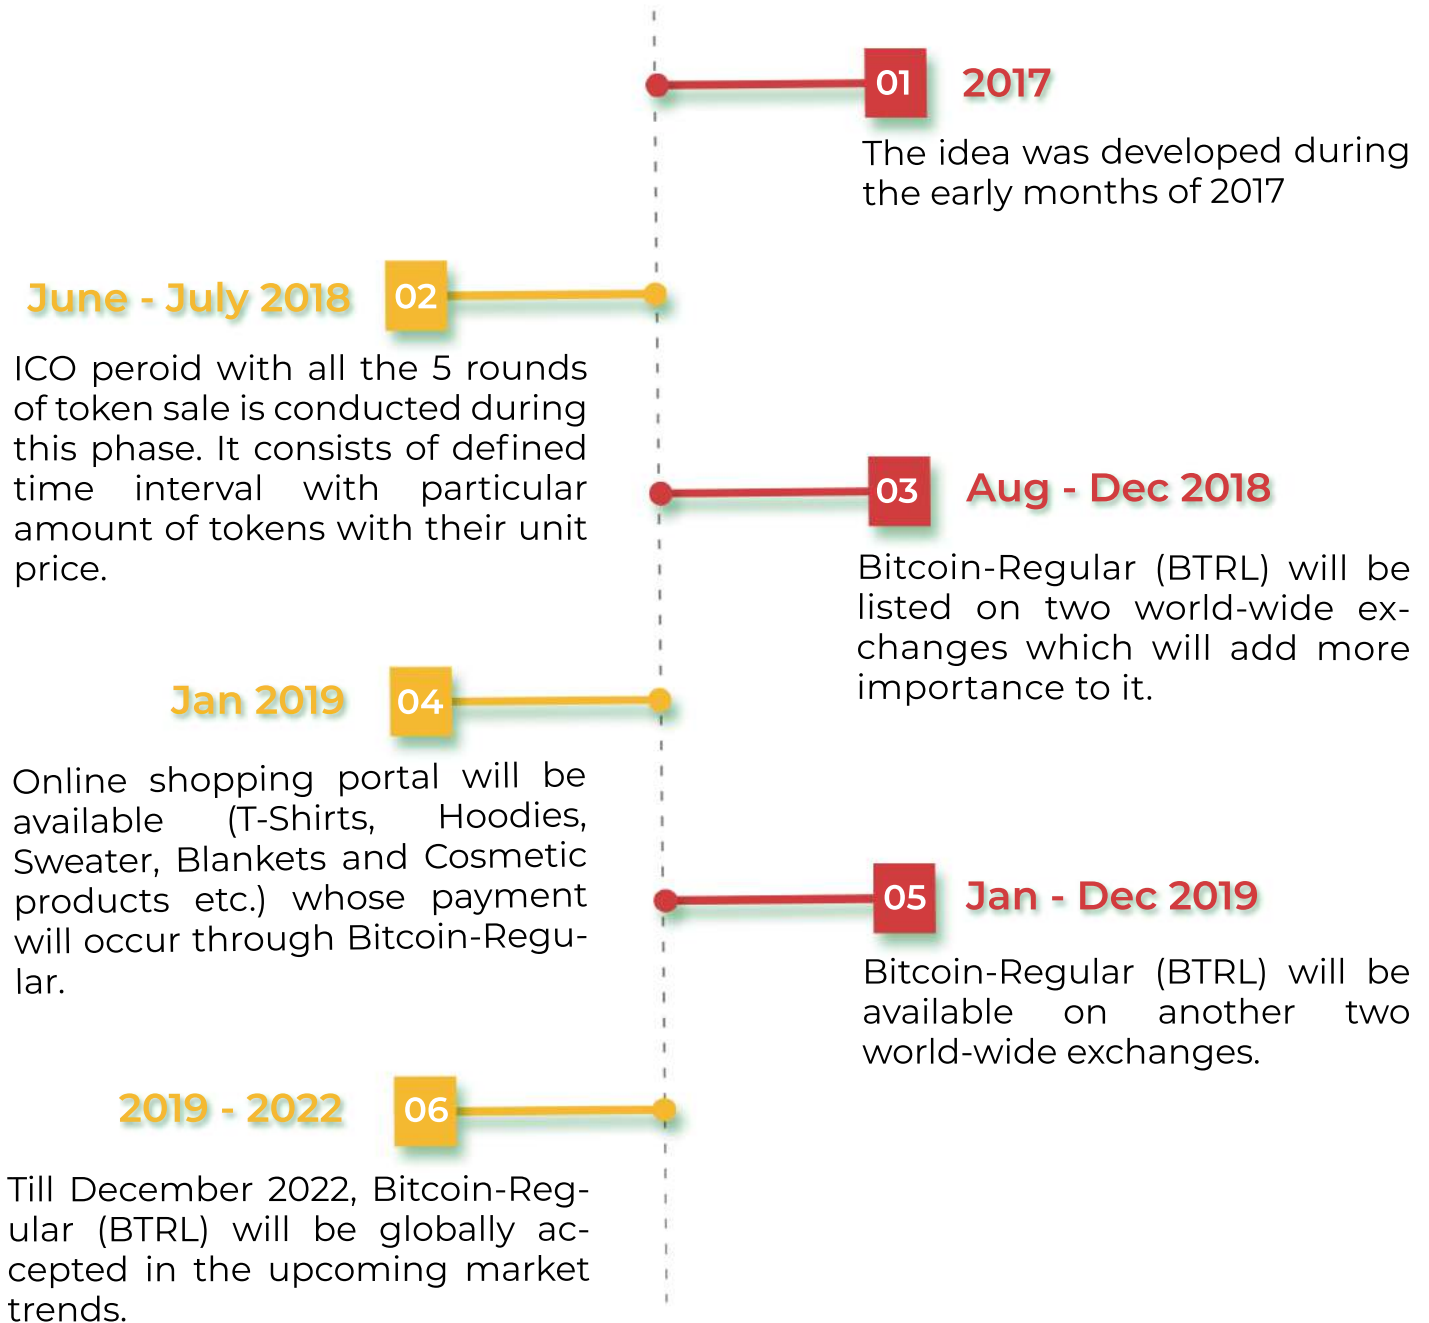

5

Start	19-Jul -18
End	31-Jul- 18
For Sale	525,000 BTRL
1 BTRL	1.5 USD

Roadmap

Defines the basic work flow and our approaches to various sectors within defined time interval.

We invite you to co-operate

We believe in our success. We are poised and prepared for the future because BTRL team with experienced CEO at the head combine creativity and revolutionary solutions in one. Every member of BTRL team is a hard-working professional in his area of expertise. Many years of experiences and good education give us high potential to make right choices and change e-commerce world.

We have technological abilities to test our revolutionary ideas in real life. We established that the ratio of initial token's price to its supply is optimal. We are strongly engaged and certain that the value of BTRL is going to rise right after ICO. We prepared many innovative, ingenious solutions to be implement just waiting for crucial finances.

We deeply believe that investors will like the idea of BTRL. We are counting on your financial support at the beginning of our project. We as a team work hard and do everything we can to achieve goals and not disappoint our investors. The team's mission is a permanent development and to provide BTRL community with new solutions they need. Thank you for all!

Our Team

Mr. Steffan, CEO

Mr. Steffan understands crypto market to depth, carries 5 years experience.

Mr. Sunny, Co CEO

Mr. Sunny is Marketing expert having 4 + years experience.
